

Bingos derived from the 2nd top five 6-letter bingo stems
(STERNA, TIE-SON, ORATES, REASON, INSERT)

Corrected Dec. 28, 2006 (RELOANS)

The six-letter combinations listed above (four of which are words of their own accord) combine with large numbers of letters and readily form bingos. If you retain these letters on your rack, chances are extremely good you'll reap a bingo in the next turn or two – and its 50-point bonus.

Common words and words from the top five 6-letter stems list are omitted.
