

## Bingos derived from the top five 6-letter bingo stems

(TISANE, SATIRE, RETAIN, ARSINE, SENIOR)

Corrected Nov. 18, 2006 (ENVIROS); Corrected Dec. 28, 2006 (TENAILS, SATIRES)

A “bingo stem” is a letter combination which easily combines with one or more letters to make a bingo. The six-letter combinations listed above (which are all words of their own accord) are the ones which combine with the largest number of letters, and therefore, most readily form bingos. If you retain these letters on your rack, chances are extremely good you'll reap a bingo in the next turn or two – and its 50-point bonus.

The common words are omitted from these lists.
